MAINTENANCE DEPOSIT/PROJECT COST STATEMENT

CC Plan Number: _____ Date: _____

MAINTENANCE DEPOSIT INFORMATION

Cash Amount: _____

Escrow Amount: _____

Other (explain): _____

1141.09 - Maintenance deposits.

Upon application to construct a private sanitary sewer the owner thereof shall deposit with the city a maintenance deposit to cover the cost of maintenance/ repairs performed by city maintenance personnel while the sewer remains under private ownership. The maintenance deposit may take the form of a cash deposit, an escrow agreement acceptable to the city, or any other form acceptable to the city. Any monies not charged to the maintenance deposit account will be refunded to the owner when final dedication to the city has occurred. The maintenance deposit shall be calculated in the following manner:

- A. Minimum deposit of one dollar and twenty-five cents (\$1.25) per lineal feet of pipe plus fifty dollars (\$50.00) per manhole.
- B. Maximum deposit of five thousand dollars (\$5,000.00).

For projects that are constructed in phases, each phase will be considered a separate project. An exception to this requirement is when the owner constructs all phases under one construction inspection deposit and the project phases will be finalized simultaneously. Any maintenance charges that surpass the maintenance deposit amount will be billed to the sewer owner and final dedication will be delayed until those charges are satisfied.

(Sec. 38.10; Ord. 1341-2006 § 1 (part).)

1141.06 - Filing of information.

Upon completion of a privately constructed sewer, the owner shall submit a project cost statement containing the entire cost of the sewer. Completion shall mean installation of all pipe, manholes, structures and other features of the sewer, restoration of all disturbed ground, and the sewer has passed all required tests. The project cost statement will be submitted on a form provided by the city and will include the allowable design and construction costs incurred by the owner. The project cost statement must be submitted before the privately constructed sewer is approved for use.

(Sec. 38.9; Ord. 1341-2006 § 1 (part).)
